- All Telcom planters express classical italian designs in a modern, rotational molded, polymer
- True color & texture will have you believing that they're actually terra-cotta or stone
- Virtually unbreakable, completely resistant to extremes of heat or cold
- Thoroughly UV stabilized to withstand years of exposure to direct sunlight
- Much lighter than terra-cotta, they are easy to work with and transport
- Will not leach moisture or mildew like actual terra-cotta or stone. Recyclable – non-toxic
